**White Eagle speaks**

You are the light, you are the wayshowers, and you are those who come as the givers and receivers of the medicine of light. As I speak with you there are many, many who are assisting in a unity of Mind. The will of the main intention is resolution to the chaos and warring factors of the past. We call upon all of the ancestors and all for this intention of honoring the Creator of All That Is, in honoring all who have assisted in the healing of those who lost their way through change. We call upon all whom awakening their mind and heart to resolutions to establish a total state of balance in all matters of human life.

For what appears as possibilities are illusions, or what appears as un-resolveable resistances are illusions. What appears as obstacles without balance are illusions, they are the illusion created by anger, rage or fear by misuse of intent, or powers of sources of unenlightened beings.

So we are gathering together all who are observing and connecting and expressing a continuous source of healing. There will be no time limit; it will be a continuous connection. It will continue through this time period of facing challenges in need of resolution. We have asked that all beings, on all dimensions connect at this time under the Order of The Christ in alignment with a balanced mind, a balanced heart, a balanced spirit in all individuals in the play of what now is taking place. And so we hold in this moment and for all the time required the thought that all things will be in a Divine out come and it is so!

We ask of each of you to hold your thoughts on the concept that you are experiencing, you are accepting and you are envisioning a true wave of wisdom, knowledge and truth in all that is taking place. That the constant affirmation is: A clearing of all illusions will bring into light what is in need for the Greater Good in all matters of this country's place in the earth.

And so each of you in this moment of inner silence, feel your bodies and all that is within you being freed of fear, being released of all doubts and hold in thoughts as being in total connection with the healing now in effect. These words will be shared, the prayer will go out, the thought will come to help unite others, and I as White Eagle am the spoke spirit of this moment.

You will not carry the burden of fear rather you will feel lighter and though the flow of light moves through you, it is aligning your bodies and radiating to help assist for your strength, your courage and your love. You be the Peace you wish to see in all humanity. It is done!!
